

Valentín Morardo

Full Stack Web Developer

Argentina, Cordoba | +54 03547 632298 | valentin.morardo@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

Experienced full-stack web developer proficient in both front-end and back-end technologies. My stack encompasses a mastery of technologies such as JavaScript and TypeScript, along with frameworks like ReactJS and Redux. In the realm of back-end development, I excel in NodeJS, ExpressJS and GraphQL working with both NoSQL (MongoDB) and SQL (PostgreSQL) databases, leveraging tools such as Sequelize and Prisma for efficient data management.

My educational background and personal project experiences have allowed me to acquire skills in agile methodologies, further enhancing and streamlining my soft skills. These include a strong aptitude for teamwork, effective communication, adaptability to changing environments, problem-solving abilities, and most importantly, a commitment to continuous improvement.

PROJECTS

Full Stack Web Developer – HypeShop

2022 - 2022
